 E-mail: [rh\\_rec.gva@icrc.org](mailto:rh_rec.gva@icrc.org) [www.icrc.org](http://www.icrc.org)

## Water and habitat engineer

### Your tasks:

The ICRC's water and habitat engineers assess the water and housing needs of victims of armed conflict. They plan projects to solve the problems encountered, negotiate with local authorities and firms regarding project implementation, supervise the execution of the projects, and handle all aspects of their administration.

Marc Bleich/ICRC

## Logistics specialist

### Your tasks:

ICRC logistics specialists are the backbone of ICRC assistance activities. They are responsible for procurement, ensure warehouse maintenance, deal with customs formalities, monitor stock levels, draw up budgets with the delegation administrator, analyse costs, and train and supervise local personnel.

Ana Feric/ICRC

## Agronomist

### Your tasks:

ICRC agronomists identify the needs of vulnerable rural communities, evaluate the impact of agricultural projects and propose, plan and follow up both emergency and longer-term programmes to revive agriculture. They begin by procuring the necessary supplies and continue through to the evaluation phase.
